

# Tax Credit Bonuses in the Inflation Reduction Act

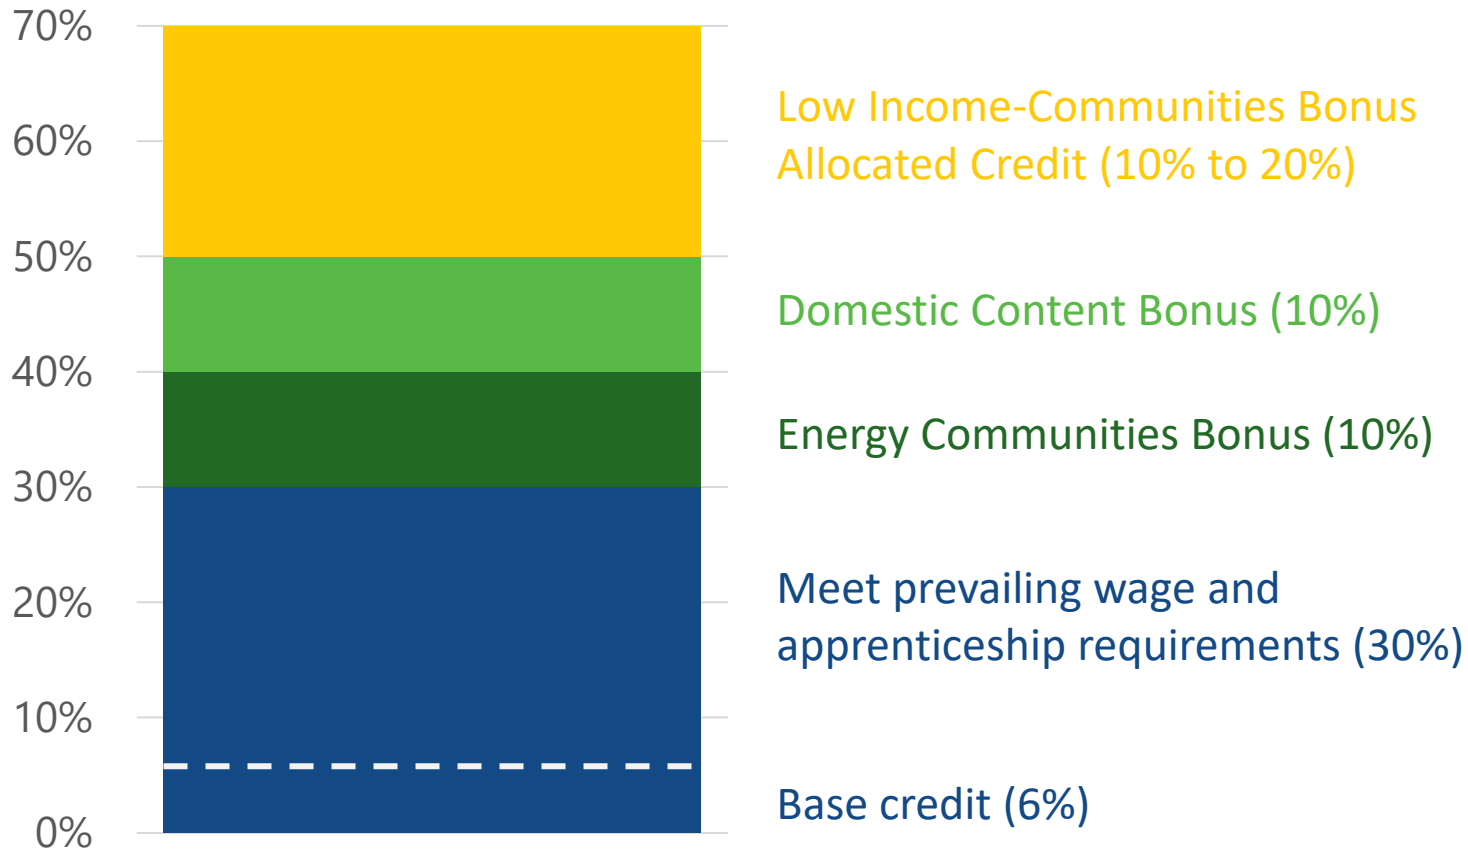

**Paul Donohoo-Vallett**

Policy Analyst | Office of Policy | Deployment & Infrastructure

# Clean Energy Layer Cake

## Total Investment Tax Credit

A hypothetical 1 MW community solar facility costing \$1 million could earn a **70% tax credit** worth \$700,000

If it is owned by a tax-exempt entity, this could be a **direct cash payment** from the IRS

Applies to clean electricity investment and production tax credits, available till at least 2032
